PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer with 8+ years of experience designing and implementing scalable web applications. Expert in React, Node.js, and cloud architecture with a proven track record of leading cross-functional teams and delivering high-impact projects. Passionate about mentoring junior developers and driving engineering excellence through best practices and innovative solutions.

WORK EXPERIENCE

Senior Software Engineer

Mar 2021 - Present

TechCorp Inc., San Francisco, CA

- Led development of microservices architecture serving 2M+ daily active users
- Architected and implemented real-time data processing pipeline reducing latency by 60%
- Mentored team of 5 junior engineers, conducting code reviews and establishing coding standards
- Spearheaded migration from monolithic architecture to microservices, reducing deployment time by 75%

Full Stack Developer

Jun 2018 - Feb 2021

StartupXYZ, Oakland, CA

- Built responsive web applications using React, TypeScript, and Node.js serving 500K+ users
- Implemented CI/CD pipelines using GitHub Actions, reducing deployment errors by 80%
- Designed RESTful APIs and GraphQL endpoints for mobile and web clients
- Collaborated with product team to define technical requirements and sprint planning

Junior Developer

Aug 2016 - May 2018

Digital Agency Pro, Berkeley, CA

- Developed and maintained client websites using JavaScript, HTML5, and CSS3
- Created reusable component libraries reducing development time by 40%
- Participated in agile ceremonies and contributed to sprint deliverables

EDUCATION

Bachelor of Science

May 2016

University of California, Berkeley
