San Francisco, CA

*Results-driven Senior Software Engineer with 8+ years of experience designing and implementing scalable web applications. Expert in React, Node.js, and cloud architecture with a proven track record of leading cross-functional teams and delivering high-impact projects. Passionate about mentoring junior developers and driving engineering excellence through best practices and innovative solutions.*

## — EXPERIENCE —

### Senior Software Engineer

**TechCorp Inc.**

Mar 2021 - Present

Led development of microservices architecture serving 2M+ daily active users

Architected and implemented real-time data processing pipeline reducing latency by 60%

### Full Stack Developer

**StartupXYZ**

Jun 2018 - Feb 2021

Built responsive web applications using React, TypeScript, and Node.js serving 500K+ users

Implemented CI/CD pipelines using GitHub Actions, reducing deployment errors by 80%

### Junior Developer

**Digital Agency Pro**

Aug 2016 - May 2018

Developed and maintained client websites using JavaScript, HTML5, and CSS3

Created reusable component libraries reducing development time by 40%

## — EDUCATION —

### Bachelor of Science

University of California, Berkeley

May 2016

## — SKILLS —

JavaScript • TypeScript • Python • Go • SQL • React • Next.js • Vue.js • TailwindCSS • HTML5/CSS3 • Node.js • Express • Django • FastAPI • GraphQL • AWS • GCP • Docker • Kubernetes • CI/CD • PostgreSQL • MongoDB • Redis • Elasticsearch

## — PROJECTS —

### E-Commerce Platform

Built a full-stack e-commerce platform with React, Node.js, and Stripe integration featuring real-time inventory management and analytics dashboard.

*React • Node.js • PostgreSQL • Stripe • Redis*

### AI Chat Assistant

Developed an AI-powered customer service chatbot using OpenAI GPT-4 API with context-aware responses and multi-language support.

*Python • FastAPI • OpenAI • Redis • Docker*
